About the Black to the Future Public Policy Institute

The Black Futures Lab (BFL) and the Black to the Future Action Fund work to make Black communities powerful in politics. The problems Black communities face are complex; the solutions to those problems require imagination, experimentation, and Black political power. The Black Futures Lab designs strategies that help us imagine the alternatives we deserve and builds the capacity of Black serving organizations to build Black political power; the Black to the Future Action Fund builds electoral power at the local and state level to implement those alternatives. Priority Black to the Future states include CA, GA, LA, NC, and WI. Other states will be considered on a case-by-case basis.

Black to the Future Public Policy Institute (the Institute) is a program of the Black to the Future Action Fund. The Institute is a policy advocacy and leadership training fellowship that provides the tools needed to transform Black communities into constituencies that wield independent, Black political power.

We work to enact policies that improve the lives of Black people. We work to ensure that Black people have what all people deserve—dignity, safety, and power. We work to ensure that governance in our communities is race-forward, guided

by the orientation that our government is responsible for addressing the challenges in our communities, and we work to ensure that the solutions we advocate for are progressive solutions that move our communities forward.

Institute trainings occur online over an eight month period, every Tuesday, from 1:00-2:45pm ET (10:00-11:45am PT), starting on **October 18, 2022 and ending on May 23, 2023.**

Institute Goals:

- **Transform** Black communities into constituencies that wield independent political power.
- **Create** a network of Black policy makers across the United States.
- **Improve** the lives of Black people.

Institute Policy Areas:

The Institute focuses on the following policy areas that directly impact Black communities:

Democracy/Voting Rights

Confronting those who conspire to steal our votes, protecting and building the democracy that is promised to us all.

Structural Barriers

Procedural fixes that if achieved could increase Black political or policy power.

Families/Public Health and Healthcare

Challenging the policies and practices that leave us living sick and dying younger, protecting and delivering the care that we need to live long and live well.

Criminal/Legal

Transforming our current criminal legal and policing system.

Economy/Economic Security

Removing policies that lock us out of good jobs and investing in the health and wealth of our communities.

Application Eligibility
